SUMMARY

My goal is to utilize my relevant experience and educational background in my field, while developing my skills and pursuing my passion as a full stack developer.

I'm learning HTML, CSS and JavaScript. I design many things (webs, cards) using HTML and CSS (everything is on GitHub). I'm building an organized code.

- HTML, CSS and JavaScript.
- Git and GitHub.
- Figma and frontend mentor.

EXPERIENCE

Volunteer work in the CIS Team MU at the university

2022 – Present

I'm in a technical group and a non-technical group.

- **Technical group:** I study front-end developer and design some cards and webs with them.
- **Non-technical group:** I study marketing.

EDUCATION

Faculty of computers & information, Mansoura University.

2020 - Present

IT Department

Degree:

- **First year:** 80.36% very good.
- **Second year:** 86.67% excellent.
